WHAT IS A PROTECTIVE ORDER?

A Protective Order is a legal remedy for the use and protection of victims of family violence, sexual assault and stalking. Family Violence means the intentional use or threat of physical force by a member of the family or household. Family includes individuals related by blood or marriage, i.e. spouses ex-spouses, aunts, uncles, cousins, brothers, sisters, parents, children, etc. Household means a unit composed of persons living together in the same dwelling, whether or not they are related to each other.

A protective order can deter violence and provide the police and courts additional authority to intervene in family violence, sexual assault and stalking cases, and to punish those who commit family violence, but it is not a shield that truly stops the next violent act from occurring.

SAFETY PLAN

PREPARE FOR FUTURE INCIDENTS

- Plan an escape route out of your home & teach it to your children
- Have a code word for children & family/friends to call police
- Tell children not to get in the middle of violence
- Talk with professionals about technology safety (computers, cell phones, etc.)
- Keep phone with you at all times and know your location
- Find a safe place to stay (family/friend's house)

IF YOU ARE SEXUALLY ASSAULTED

- ASAP - Go to a hospital and have a Sexual Assault Kit Examination Performed.
- Seeking medical attention will help determine if you have any injuries, help collect evidence, test for STI's and pregnancy.
- As time passes, evidence can be destroyed. Try not to change clothing, shower or bathe.
- Counseling can help you process feelings about assault and determine your options.
